for more than a generation this concise survey has been the classic introduction to the fundamental ideas and structure of canadian government and the practice of democracy in this country it examines the various elements of federal government the house of commons the cabinet the senate the monarchy and governor general the public service and the courts and of provincial and municipal governments and explores their interrelationships in this new edition norman ward has incorporated the many changes in government since his last revision in 1971

the fifth edition of canadian parties in transition continues and enriches the work of earlier

editions in bringing together a highly respected group of scholars to offer a comprehensive account of the development of party politics in Canada. The book addresses the origin and the evolution of the Canadian party system and discusses how that system has been impacted by regionalism, brokerage politics, and political marketing. It focuses on the competing ideological currents that occupy the political stage while also paying attention to the role of third parties in federal politics. Contributors address the representation and democracy through an exploration of voting systems, direct democracy, the role occupied by constituencies, gender politics, and the distinct Quebec dynamics in the federal party system. Finally, the book analyses topical issues such as electoral participation, social movements, right-wing populist parties, political campaigning, and digital party politics. This new edition has been thoroughly revised and updated to reflect ongoing transformations and includes nineteen new contributing authors and coverage of seven new topics: Canadian parties in transition, presents a multi-faceted image of party dynamics, electoral behaviour, political marketing, and representative democracy.

Social policy shapes the daily lives of every Canadian citizen and should reflect the beliefs of a majority of Canadians on just approaches to the promotion of health, safety, and well-being. Too often, those on the front lines—social workers, nurses, and teachers—observe that policies do not work well for the most vulnerable groups in society. In the first part of this new edition of *Canadian Social Policy*, Westhues and Wharf argue that service deliverers have discretion in how policies are implemented and the exercise of this discretion is how citizens experience policy. Whether or not it is fair and reasonable, they show the reader how social policy is made and they encourage active citizenship to produce policies that are more socially just. New material includes an examination of the reproduction of systemic racism through the implementation of human rights policy and a comparative analysis of the policy-making process in Quebec and English Canada. The second part of the book discusses policy issues currently under debate in Canada. Included are new chapters that explore parental leave policies and housing as a determinant of health. All chapters contain newly updated statistical data and research and policy analysis. A reworked section on the process of policy making and the addition of questions for critical reflection enhance the suitability of the book as a core resource in social policy courses. The final chapter explores how front-line workers in the human services can advocate for change in organizational policies that will benefit the people supported.

Note: You are purchasing a standalone product. MyLab MIS does not come packaged with this content.
